

FastLinQ® 41000 Series 25GbE Ready with SmartAN®

FUTURE PROOF YOUR NETWORK

SmartAN in the 41000 Series **automatically configures** the 10/25GbE port on the adapter to the **highest possible speed** based on switch bandwidth, FEC setting, and DAC/Optical connection used.

Supports both 10GbE or 25GbE concurrently

Auto-neegotiates without user intervention

Gives IT admin time back in their day
