

As you start deploying next-generation Servers and Storage solutions from Dell/EMC to your clients, connectivity between these devices becomes critical. To help keep you up to date on the latest connectivity technologies Marvell are inviting you to attend the Marvell Coffee Talk Webinar Series, exclusively for Dell Sales and Presales professionals.

In these short, 30-minute sessions, you will receive the latest information pertaining to server and storage connectivity for Dell solutions from the I/O experts on the Dell OEM Team at Marvell. This is a straightforward way for you to stay knowledgeable, get your questions answered and become an even better trusted advisor for your clients. Just click the links below to register today.

All webinars are at 10:30AM CET (UTC+2)

**22 June 2023** [Why your customers are considering transitioning to NVMe over Fabrics](#)

**27 July 2023** [BOSS boot solution from Dell and Marvell](#)

**24 Aug 2023** [Automating SAN congestion management](#)

**28 Sept 2023** [Optimizing shared storage for virtual server environments](#)

**26 Oct 2023** [Why hasn't Ethernet replaced Fibre Channel for storage connectivity?](#)

**23 Nov 2023** [Fibre Channel best practices with Dell Channel Partner](#)

**14 Dec 2023** [Setting realistic expectations for FC storage performance](#)

If you have questions or suggestions for additional topics, please reach out to our team at [OEM-Customer-inquiries@marvell.com](mailto:OEM-Customer-inquiries@marvell.com) . We look forward to joining you in these training sessions!

Best regards,  
The DELL Team at Marvell
